Calling all clinicians, hospitals, heart centers, public health departments, and Heart Valve Disease Awareness Day partners.

Join the movement this Heart Valve Disease Awareness Day—Wednesday, February 22, 2023—by showing your audiences how easy it is to get their hearts checked for valve disease.

Plan a heart screening event OR
Take a picture as you listen to a patient or colleague’s heart OR
Gather a group to listen to each other’s hearts

Between 1:00 pm and 3:00 pm ET on February 22nd
Share pictures of your organization’s event on social media OR
Go live on social media OR
Share our social media graphics available from ValveDiseaseDay.org

Use #ListentoYourHeart and #ValveDiseaseDay and help us flood social media with images of people listening to their hearts!
